HUSS-MEDIEN GmbH  
10400 Berlin

[www.technische-logistik.net](http://www.technische-logistik.net)

**Technische Logistik** is a value-orientated technical magazine for conveyor technics and series lifting equipment across all branches of industry, trade and services. The editorial concept of **Technische Logistik** is focused on system solutions and components for warehousing, handling and conveying, information management, transport and transshipment, cranes and crane technologies, hoisting equipment and fork lift trucks.

**Technische Logistik** covers all parts of conveyor technique and hoisting devices relevant for company logistics manager and buying departments. Our readers are investment decision-makers and -preparers in intralogistics: logistic managers, warehouse and production managers, technical directors and technicians in development, planning and production.

**Technische Logistik** has developed to one of the leading and most acknowledged magazines of the branch with an excellent standing.

**Retrofit & Maintenance 2025**  
**current modernization and maintenance projects**  
**introduced – case studies with company profiles**

As a leading magazine of conveyor technology »Technische Logistik« is going to publish a special edition, the contents of which will be essential and exciting for all companies with the intention to modernize their storage or equipment.

This will be also an important publication, because the branch of modernization and maintenance developed into a sales increasing factor.

Modernization and maintenance of conveyor technique and storage equipment applies to the whole spectrum of intralogistic: for example: crane equipment, storage systems, conveying systems, driverless trucks etc.

Many users want to be kept informed about questions as, when is a modernization profitable and wherefrom to get the necessary consultation.

Because of the manufacturing process, modernization and maintenance should take place while production continues.

Many questions – the »Retrofit & Maintenance 2025« will be able to answer.

In a series of articles we will introduce outstanding examples of modernization and maintenance.

From the point of departure to the realization – object reports of different branches.

Each case study (2–3 pages) will be completed by a company profile – ½ page.

**Company profile:**

- address and all communication data
- logo and complete production program
- important steps in the development of the company
- specific strength of the company
- contact persons
- further references (short description)

**Costs:** case study 2 pages and  
1/2 page company profile:  
**€ 2,400**

all company profiles are also available at  
[www.technische-logistik.net](http://www.technische-logistik.net)  
**for the period of 1 year**

**Attention:** if you book an advertisement of ½ page  
you will get the company profile out of costs.

**Prices for adverts:** see on the regular price list in the media map  
**Circulation:** 12,000 copies

**Target group:** selected decision makers and users of  
intralogistics and production

**Dates:**  
publ. date: 26<sup>th</sup> August 2025  
deadline for ads: 5<sup>th</sup> August 2025

**Best Projects 2026**  
**Intralogistics for Investors**

As a leading magazine of conveyor technology »Technische Logistik« is going to publish a special edition, the contents of which will be essential and exciting for all companies planning concrete investment projects in the field of intralogistics. This will also be an important publication, because the new building branch developed into a sales increasing factor. With this edition we will present the whole range of topics of building projects in the intralogistics.

The investors will be informed about different options, the planning, the projecting and providing with energy saving and economic methods for a new factory or facility.

Also an important part: the general contractors. They could offer their clients all necessary conditions: Know-how, all services and systems.

»Best Projects 2026« covers all parts of new building enterprises: analysis, consulting topics, the planning and simulation, implementation and completion, the turnkey delivery and after-sales services.

This will be an important decision-making-help for all investors.

**Your letter of recommendation**

**Part 1)** basics and theory of the new building business.  
Advices for investors: establishment, announcement, advancements

**Part 2)** analysis, consultation, planning and conception:  
We will introduce your consulting and planning projects  
(report 6.000–8.000 signs)

**Part 3)** from the implementation to the handover  
Your building projects of the year introduced: case studies from different general suppliers: sole responsibility, realization and services (report max. 6.000–8.000 signs)

**Part 4)** to every single reports there will be a company profile containing:

- address and all communication data
- logo and complete production program
- important steps of the company development
- specific strengths of the company
- important contact persons
- further references (short description)

**Costs:** case study 2 pages,  
1/2 page company profile: € 2,400  
All company profiles are also available at  
[www.technische-logistik.net](http://www.technische-logistik.net)  
**for the period of 1 year**

**Attention:** if you book an advertisement from a ½ page you will get the company profile out of costs.

**Prices for adverts:** see on the regular price list in the media map  
f.e.: ½ page 4c: € 3,750  
¼ page 4c: € 6,670

**Circulation:** 12,000 copies

**Target group:** selected decision makers and investors of intralogistics in production, distribution, industry and commerce

**Dates:**  
publ. date: 11<sup>th</sup> December 2025  
deadline for ads: 20<sup>th</sup> November 2025

**Magazine format:** 210 mm width × 297 mm height  
**Type area:** 185 mm width × 266 mm height  
**Printed method:** Offset, Lithos on 60 line screen  
**Printed material:** digitalized data will be needed  
**Issuance:** 8/year + 2 annual editions  
**Issued:** in Berlin

**Terms of payment:** Upon receipt of the invoice net cash within 14 days  
 Agency commission rate: 15 %  
 VAT: All prices are excl. VAT

**Bank account:** Commerzbank Berlin  
 A/C No.: 97 600 59 00,  
 Sort code 120 400 00  
 Swift (BIC-Code): COBADEFFXXX  
 IBAN: DE881204 0000 0976 0059 00

**Last cancellation date:** Up to the deadline for adverts!

**Place of jurisdiction:** Berlin only

**Advertisement sizes and basic rates:**

Technische Logistik  
Hebezeuge-Fördermittel

Kompetente Branchen-News für Profis

**Liebe Leserinnen und Leser:**

der Oktober ist schon in vollem Gange und wartet mit vielen interessanten Veranstaltungen auf. Über zwei davon können Sie sich auch in unserem heutigen Newsletter informieren. Da wäre zum einen der SVL Supply Chain CX zu nennen, der vom 23. bis 25. Oktober in Berlin stattfindet. Erwartet werden bis zu 5.000 Teilnehmende, die auf acht Bühnen 220 Speaker erleben können.

Am 24. und 25. Oktober 2024 finden dann die „Staplercup Finals“ in der Arena in Aachen statt. Zusätzlich zu den Weltmeisterschaften finden der „Corporate Cup“ – die führende Firmen-Team-Meisterschaft - sowie der „Charity Cup“ statt.

Natürlich stellen wir Ihnen in diesem Newsletter außerdem auch wieder zwei interessante Beiträge aus unserer aktuellen Ausgabe zum Lesen zur Verfügung. Bei dem einen handelt es sich um ein Interview meines Kollegen Jan Kaußfuß-Berger mit Markus Gofft, dem Geschäftsführer der Transoic Systems GmbH. Gesprochen haben sie balden unter anderem darüber wie der hiesigeische Helden Champion auch hiesigeische bekannter werden will.

Im zweiten Beitrag geht es dann um den sich weiter ausprägenden Trend zur Individualisierung in der Intralogistik und die damit einhergehenden Anforderungen an die eingesetzten Software-Lösungen.

Viel Spaß beim Lesen und vielleicht auch dem Besuch der erwähnten Veranstaltungen wünscht

Christina Kasper  
Redaktion Technische Logistik

**Mehr Platz für alles, was kommt.**

Mit AutoStore vom Element Logic maximieren Sie Ihre Lagerkapazität auf minimaler Fläche, automatisieren Sie Ihre Prozesse im laufenden Betrieb, steigern Sie die Effizienz und schaffen Sie Raum für Wachstum – heute und in Zukunft.
